

DAVID BARCLAY GURULE JR

WEB DEVELOPER | SOFTWARE ENGINEER | FULL-STACK

SKILLS, TRAINING, & FAMILIARITY

JavaScript, HTML, CSS, Flexbox, Postman, REACT, Bootstrap, Google Products, AirTable, Microsoft Sharepoint, Adobe Products, MongoDB, Linux, Windows, Android

WHO AM I?

I have combined the experience I gained in the General Assembly Software Engineering Immersive with the skills I developed while earning my Masters in Management from Colorado State University to envision ways of developing solutions that can genuinely improve the lives of individuals and teams. I have over 15 years of experience in Law Enforcement, with five years of that time in a project management role. I spent my last year in law enforcement supervising a team of highly energetic and motivated members.

My passion is people, innovation, technology and how they support each other. I am enthusiastic about projects where I am coding to benefit others in meaningful ways.

EXPERIENCE

General Assembly-Software Fellow Software Fellow

**New York, New York
September 2021-December 2021**

-At General Assembly I received experience in both frontend and backend processes and systems and completed projects demonstrating not just code knowledge but the processes involved in project management. The importance of wire-framing, pseudocode, diagramming and planning has been the essence of my success.

Department of Public Safety-Colorado State Patrol Sergeant, Trooper, Recruiter, Registrar

**Lakewood, Colorado
January 2007-September 2021**

-With the Colorado State Patrol I contributed in several leadership roles while serving the citizens of Colorado and keeping our great State safe. I was awarded for several contributions: top DUI, Seatbelts, top Academics. I had several teaching roles and demonstrated project management success and leadership experience with fast-paced high risk situations (i.e. stand-offs, shootings, fatal and serious injury crashes, use-of-force reporting, etc.)

EDUCATION

General Assembly - Software Engineer Program

New York, New York

-I completed a twelve week immersion program which included project experience and tools and languages including but not limited to: HTML, CSS, JS, API's, React, Node, Mongo

Colorado State University- Master's Degree - Management

Greenwood Village, Colorado

-I completed a MS degree in Management which consisted of strategic planning, quantitative and qualitative methodology, critical thinking, economics and project management.
